Living in Cergy

Housing

The International Relations Office helps you feel comfortable at ENSEA and in Cergy. You can use these services as soon as you arrive and throughout your stay. IRO staff is exclusively focused on the needs of international students.

The IRO office can help the incoming students to find a room in the nearest student resident after the acceptance of their application.

If the incoming student wants a room booked before her/his arrival, he/she can directly inform the IRO through the mobility application form downloadable on our website.

Public Transport

The ENSEA is ideally located at the heart of Prefecture District in Cergy.

From the nearest train station (500m), the students can go to Paris City center in 40 minutes. Tickets are available at the train station for any train, bus and subway in Île-de-France region.

A direct bus line goes from "Prefecture" train station to Charles-De-Gaulle, international airport.

For more information:

www.ratp.fr

For groceries, clothing, leisure activities and everyday needs, the "Trois Fontaines" mall, located above the station, offers all the main services a student may need.

Visa

International students who wish to study in France must meet certain requirements of the French government. To obtain information, contact the French Embassy or Consulate in your country.

Citizens from the EU, Norway, Iceland and Switzerland do not need any visa to enter study and work in France.

To obtain more information about the visa legislation, please visit:

www.diplomatie.gouv.fr

Insurance

The International Relations Office will provide the incoming student with information on health insurance requirements and the extent of the medical cover offered to students enrolled in a French public school.

The student, however, has the responsibility for any further medical insurance, civil liability and repatriation insurance.

For more information:

etudiant-etranger.ameli.fr

To subscribe to liability insurance in France we recommend ADH:

assurances-etudiants.com

Covid-19

Before the arrival

Depending on your country of origin, a PCR test or a vaccination certificate may be expected in order to enter in France.

All the updated information about immigration policy and sanitary rules applied to each case can be found on this page:

[Campus France](#)

During the stay

Wearing masks is mandatory at ENSEA (inside and outside the classes). Hand sanitizer dispensers are available in every classroom and we strongly recommend students and staff to bring their own as well. If a student forgets this security material masks and hand sanitizer refills are available at the front desk of the school.

Masks are mandatory in the shops, public transport, public closed spaces such as administrative buildings, offices, and any closed or crowded place (stadiums, skating rinks, some beaches...).

Wearing a mask anywhere outside your personal home is very strongly advised.

Classes

Students must wear a mask during classes. The curriculum has been modified in order to allow only 15 students at a time in a classroom for 30, in order to allow social distancing. Some of the classes will be proposed online in order to do so.

The exams will be organized in large examination rooms or online to allow social distancing at any time. The stairways of the school are one way only to avoid any close contact between students.

Travel through Europe

Students planning to travel abroad during their stay will be asked to inform the International Relations Office in order to stay in contact with them all along and to make sure they will be exploring the world in the safest conditions.
