French course offer

Most subjects at Ensag are taught in French, and some in English. Ensag offers tutorial supports in French and English to students who request it whenever possible. Also note that some teachers may allow students to write assignments and take exams in English, but this situation can only be agreed upon arrival in each individual case.

International students can enroll in ENSAG our free "French as a Foreign Language" (FLE) courses to improve written and oral expression. The students will take a placement test at their arrival, in order to assess the level of knowledge and form homogeneous classes of learners: further information will be sent to students directly.
