

Institutional Details

Name of the institution	Vytautas Magnus University (VMU) <i>in English</i> Vytauto Didžiojo universitetas (VDU) <i>in Lithuanian</i>
Erasmus code	LT KAUNAS01
PIC code	999590627
Website	www.vdu.lt/en
Rector	Prof. Juozas Augutis

Academic Calendar

Academic year at VMU starts on the last week of August and lasts until the end of June and it is divided into two semesters: Autumn Semester and Spring Semester.

SPRING SEMESTER

Orientation Days for incoming students	January 23-31, 2019
Registration to the study courses	January 28 – February 3, 2019
Final correction of registration to the study courses	February 4-7, 2019
Beginning of Spring Semester	February 1, 2019
Last day of lectures	May 17, 2019
Exam session	May 20 – June 7, 2019
First exam retake session	June 12-14, 2019
Second exam retake session	June 18, 2019
Last day of Spring Semester	June 28, 2019

Application Procedure and Deadlines

Application steps for exchange students can be found on VMU [website](http://www.vdu.lt/en).
www.vdu.lt/en → Studies → Exchange Studies → Incoming

Nomination Deadlines	Exchange studies	Degree studies (full time)	Double Diploma Programmes
Autumn Semester, Full Academic Year	May 8	July 1	July 1
Spring Semester	November 8	December 1	December 1
Application deadlines	Exchange studies	Degree studies (full time)	Double Diploma Programmes
Autumn Semester, Full Academic Year	May 15	July 1	July 1
Spring Semester	November 23	December 1	December 1

Study Courses in English

VMU offers over 500 study courses taught in English. The full list of subjects can be found on VMU [website](http://www.vdu.lt/en).

Integration of ASU, LUES and VMU

On January 13, 2018 the Parliament of Lithuania ruled that Aleksandras Stulginskis University (ASU) and the Lithuanian University of Educational Sciences (LUES) will be integrated into Vytautas Magnus University.

The university will conduct scientific research and studies in the humanities, social, physical, biomedical, technological and agricultural sciences. The integration has expanded the capabilities of each of the three university communities. After combining their academic potential and consolidating the infrastructural resources, opportunities will be made possible to efficiently perform research and provide studies in all fields. VMU will continue to develop its already existing studies and research in the humanities, social, natural, physical and technological sciences and the arts. Excellent synergy is also expected to emerge in the newly added scientific fields of bioeconomics, renewable and alternative energy, engineering and technological sciences, IT in agriculture, climate change research, and environmental sciences. Thanks to the joint efforts of Lithuanian and foreign scientists and experts, the education sector will be reformed: student admission to the Academy of Education will be launched in 2018, where studies and scientific activities based on the latest international research will be conducted.

New breakthroughs are also expected to be achieved at the VMU Academy of Agriculture, which will open in 2019. The integration of the three universities will be completed at the legal level by 2019, while the optimization of various activities and organizational structures will continue until 2022. As agriculture is increasingly modernized, digitized and robotized, with focus centred on work in global markets, the integration of ASU is intended to result in the development of strong interdisciplinary programs and consolidation of studies and research in agriculture and engineering of biosystems. Strong synergy is anticipated in the field of biotechnology, particularly plant-based, as VMU and ASU are among leaders at national level in this scientific area. Furthermore, opportunities are increasing for more efficient utilisation of joint infrastructure, scientific equipment, and the possibilities provided by Nemunas Valley.
