Course registration	The start of course registration depends on the programme students have applied for. Same goes for the signing of any documents, such as learning agreements, etc. For some

	of the programmes students will need to submit a subject choice form. These forms are available on our webpage. The definite registration usually takes place upon arrival. All course/academic matters are handled by the programmes.														
Language(s) of instruction	Subjects offered to exchange students are taught in English.														
Language proficiency	The Hague University of Applied Sciences does not require exchange students to provide results of a language test. THUAS relies on its partner institutions to evaluate their student's English proficiency to make sure that the level is sufficient to cope with the study programme. A specific minimum level of English may be specified in the exchange agreement between your home institution and THUAS.
