# Welcome to Antwerp Summer University

Broadening your horizon by studying, travelling and meeting people – at Antwerp Summer University you have it all.

Antwerp Summer University offers you short-term, high quality, academic programmes based on the excellence of the University of Antwerp and its regional and international partners. In a friendly and supportive learning environment, you can discover new academic disciplines or deepen your knowledge in your field.

Your host city is Antwerp, a vibrant metropolis in the centre of Europe, a delightful city with a rich heritage. The gothic Cathedral of Our Lady, the baroque Carolus Borromeus Church, the printing cabinet of Plantin-Moretus, Antwerp-Central Railway Station,... the list of places to visit is long. Just walking the streets or strolling along the quays of the river Scheldt and enjoying the scintillating atmosphere of summer in Antwerp will lift your heart.

Come and learn from experts, all outstanding in their field, and meet fellow students from all over the world. Join them for intensive study programmes and for interesting and fun evening and weekend activities.

We are looking forward to welcoming you at Antwerp Summer University.

Prof. dr. Herman Van Goethem  
Rector University of Antwerp

# Your Host, University of Antwerp

The University of Antwerp has around 20 500 students, which makes it the third largest university in Flanders. Around 20% of our students are international, coming from all corners of the world: from the A of Argentina to the Z of Zambia. The University of Antwerp is characterised by its high standards in education, its internationally competitive research and its entrepreneurial approach.

*I really like the atmosphere of Antwerp. Everything is within walking distance, but still it feels like a very international city.*  
Nina, Germany

# Antwerp, Metropolis at the river Scheldt

Located in the heart of Belgium and Europe, the city of Antwerp is well-known for its major international port and for being the world centre for diamond trade. Antwerp has always played an important role in the political

and cultural history of the Low Countries. It is a charming and green city with many excellent museums and a large cultural heritage with Pieter Paul Rubens as its most famous ambassador. This, in combination with

the more than 2000 bars and restaurants and along with some of the finest shopping districts in Europe, makes Antwerp the ideal city for students during the summer months!

527 461 inhabitants,  
171 nationalities

38 parks

706 bars,  
1725 restaurants

28 museums, 60 art galleries

# Antwerp Summer University

## High academic Quality

Next to several interdisciplinary programmes, summer school **topics** range from Law over Design Sciences to Health Sciences.

All summer schools consist of intensive full-time programmes in which a wide variety of teaching methods are used, ranging from lectures, over workshops and debates, to visits and seminars. Sessions are taught by international speakers and experts from both within and outside the academic world. For some programmes, participants are required to do some preparatory reading, take an examination or make an assignment at the end of the course. An intensive learning

experience with maximum impact is guaranteed thanks to the international composition of the classroom, the interactive set-up of the courses and the approachability of the lecturers.

**Target groups** are different for each summer school and may consist of students, researchers and/or professionals.

## Social Programme

To keep the minds fresh and to maximise interaction, a wide variety of fun and interesting social activities are organised during evenings and weekends so participants can make the most of their stay in Antwerp.

A visit to the enormous port, a networking reception, a guided city walk, a quiz night, a football game and a day-trip to other Belgian cities such as Bruges and Brussels are only some examples of these activities. All activities of the social programme are offered free of charge. In some cases participants will be asked for a deposit which will be reimbursed upon participation to the activity.

**Discover all of our programmes and spend a wonderful summer in Antwerp!**

# Practical Information

## Language of Instruction

English is the language of instruction of all programmes within Antwerp Summer University. As active participation is compulsory in all courses, English proficiency in reading, speaking and writing is required.

## Application Procedure in 5 Steps

1. Go via [www.uantwerp.be/ASU](http://www.uantwerp.be/ASU) to the programme you would like to apply for.
2. Open the online registration tool (Mobility Online).
3. Fill in personal details, upload some documents and complete extra questions.
4. Wait for approval of your application.
5. Pay the participation fee within 10 days after approval to secure your spot.

Specific entry requirements, application deadlines and cancellation policies vary between summer schools. Please refer to the webpage of your preferred summer school to find out more.

## Scholarships and reduced fees

University of Antwerp students are entitled to a refund of €150 after submitting a certificate of attendance to the Antwerp Summer University Office.

Some summer schools offer scholarships or reduced registration fees for specific target groups. Please refer to the website of the summer school of your preference to verify whether there is a scholarship you would be eligible for.

For each summer school, a limited number of reduced registration fees (€50 or €100) is available for refugees residing in Belgium.

Please visit [www.uantwerp.be/ASU](http://www.uantwerp.be/ASU) or scan the QR-code below for more information.

### **Credits and Certificates**

ECTS credits are awarded for successful completion of the programmes. The number of credits varies between summer schools. Recognition of credits in the home curriculum should be agreed upon with the home institution. It is the participant's responsibility to do so. In this regard, a course information

sheet can be provided for each summer school. Students are expected to attend all classes, complete all exercises and sit for final examinations (if applicable). Students who attend all the classes will receive a certificate of attendance. Moreover, students who pass the evaluation will receive a certificate of successful completion.

### **Visa**

If you are a national of a European Economic Area country or Switzerland, you may travel to Belgium on the strength of a national passport or identity card. Moreover, citizens from certain countries don't need a visa for a stay of maximum 90 days either. The full list is available on our website.

Upon acceptance and after payment, you can request a visa invitation letter through Mobility Online, the online application platform.

For some countries and in some periods, approval by the Belgian authorities can take up to three months. Make sure you start the visa application procedure well in advance!

## Getting Around

The University of Antwerp has 4 campuses located in the city centre as well as in the the outskirts of Antwerp. Most summer schools will take place at, or close to, the Stadscampus. Biking is the easiest and fastest way to get around, although a dense public transportation network also allows you to easily travel by bus or tram.

## Getting to Antwerp

Antwerp is located in the centre of Belgium and is easily accessible by plane, train, car and bus. The international airport of Brussels (Zaventem) is the most frequently used gateway to Antwerp, but you might also want to consider the low-cost airport of Brussels South or the very nearby airport of Antwerp itself. Antwerp is also very easy to reach by train.

International railway lines link Brussels and Antwerp to several other major European cities. Lastly, international buses also frequent the city centre of Antwerp, which might be the cheapest option to get here.

Did you know that Antwerp's Central train station was awarded as the most beautiful railway station in the world by New York's Mashable in 2014?

### **Cost of Living**

Antwerp is an affordable alternative to many other European cities. Registration fees, and what is included in these fees, vary between summer schools.

In general, all course materials, coffee breaks and social programme activities are included in the registration fee. If accommodation is not included, students should count for €20 - €90 per night, depending on the type.

Students receive a discounted price at student restaurants. All participants are insured for third party liability and accidents during summer school activities. Additional insurances (e.g. health and travel), as well as travel costs are the participant's own responsibility.

For a detailed simulation, please visit our website ([www.uantwerp.be/asu](http://www.uantwerp.be/asu) > During your stay > Cost of living).

### **Accommodation**

Looking for accommodation during your stay at Antwerp Summer University? Antwerp has many different accommodation options to offer, ranging from student rooms over youth hostels to classic hotel rooms.

Accepted students will be provided with a list of housing options in different price categories and at different locations. Prices range from €20 to €90 per night, depending on the type of accommodation. For some summer schools, accommodation is included in the package.

### **Facilities at the University**

Accepted students will have access to computer labs, libraries, Wi-Fi network and the discounted prices of the catering facilities of the University of Antwerp.

# Join us in Antwerp!

*My takeaway from the summer school would be the memories we made during several amazing activities – ranging from an authentic Flemish cooking class to city tours and even visiting the European Parliament! The participants in the course got along extremely well and most of us still remain in touch and have visited each other in our native countries.*

Shachi | India

*The practical sessions were based on real-life cases. The constant interaction between theoretical sessions and group activities really added value to the programme.*

Ahmed | Egypt

*I'm very impressed with the organisation of this summer school. The programme is well-structured, the interdisciplinary approach is enriching and the lectures are all clear and inspiring. Even the coffee breaks are well-organised.*

Leonie | United Kingdom

*The course was my first time to Antwerp, and I really had a good time there. I really think the summer school was an efficient way of learning about a particular field from the people studying it daily. I would not have been able to get as confident in my knowledge of the field in any other way.*

Kristian | Denmark

*The experience at Antwerp Summer University was great! Although the programme was academically demanding, we had a wonderful time in class thanks to the presence of so many speakers and participants coming from different countries. We also participated in the social activities during evenings and weekends and had an amazing two weeks in Antwerp.*

César | Spain
