BERLIN SUMMER UNIVERSITY OF THE ARTS 2025

What does an ideal world look like? How can we collectively shape our present and future?

In times marked by instability and uncertainty, what role can art play in processing experiences, challenging existing boundaries, and carving out alternative spaces?

With this year's theme Utopia, the Berlin Summer University of the Arts 2025 invites you to dive into these questions and explore visions of a better world through your artistic practice.

From June to September, we offer a programme of over 30 courses across all artistic disciplines and beyond. Get inspired, develop your artistic practice further and make lasting connections in an international and transdisciplinary setting at the Berlin University of the Arts – one of the largest and most diverse art universities in Europe.
