LET'S ESCAPE!

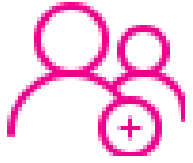

**International bachelor's students
of all disciplines and universities:**

University of Twente (UT) invites you to go on
a cheerful city trip, while working towards a thriving
circular society. All you need to bring is YOU,
and a touch of curiosity*.

No fluff, just down to earth action.

6 REASONS TO JOIN CURIOCITIES

1. MEET YOUR ALLIES

Connect with fellow students from all over the world and build a multidisciplinary network.

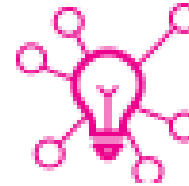

4. TALK WITH GUIDES AND EXPERTS

Connect tech, design and society: Exchange knowledge and (lived) experiences with the locals.

2. CIRCULAR SOCIETY

Work on a real societal challenge by joining activities, workshops and exercises on different locations.

5. COLLECTIVE IMAGINATION

Work with tools and exercises to explore, discuss and reflect on scenarios. New skills to use in your studies and future career!

3. ENSCHEDE CITY 700 YEARS

Get inspired by Enschede's culture, city centre, UT campus, sporty side and entrepreneurial mindset!

6. FOOD, FUN AND RELAX!

Every day a new food experience, and social activities to have fun and recharge. Plus: a festive ceremony!

WORK ON A GLOBAL CHALLENGE

No time to sit down: we explore how innovations can make us rethink about what our cities could look like in the future.

On various locations, you will train your 'futures' muscle* and apply tools to explore, discuss and reflect on different scenarios.

Take home a suitcase filled with new skills to use in your studies and future career! (Various sizes, fits all).

*Responsible Futuring Approach

VISIT THE CITY'S HOT SPOTS

We take you with us to various locations in Enschede: the capital of Twente (it's what we like to say here).

Look around you: its textile history, 'noaberschap' culture, art and architecture, sporty side, innovation in business, the UT campus... (and much more)!

Use the city and its public space as an inspiration to tackle a global challenge.
