

Do you wish to bring your science to the market?
Do you want experts to show you the way?

International Summer School on Technology Transfer in Life Sciences

23rd – 27th September, 2024
Dresden, Germany

The neglected starting point

Learn how to identify the innovative potential within your own research.

The theory

Get to know the options that you have to bring your inventions to the market.

Practice!

Develop your idea or invention towards a real innovation with the help of experts.

It's all about money

Gain knowledge on funding opportunities and learn how to pitch in front of potential investors.

Expert talk

Get in touch with successful founders of life science companies and find out about the challenges they faced – and how they solved them.

Jump start

Focus on your idea. Don't worry about finances. Participation fees do not apply.
