

Dear Partner,

We are pleased to inform you that our University has decided to confirm that the Summer University 2020 courses will take place as scheduled, by virtue of a number of new measures that will enable the students to enjoy an educational experience in complete safety.

The Summer University 2020 courses will be held remotely online in synchronous mode, using a specific platform.

Each program offers the opportunity for intensive interdisciplinary study on avant-garde themes and combines theory and case studies together with the learning of strategies that can be applied to a wider range of environments.

The platform will also facilitate interaction with representatives from companies and institutions during the program activity. The students will also have the opportunity to get to know other students from all over the world with markedly different cultures, and to work in tandem with them using a peer-to-peer approach.

The courses will center on the following themes: International Management, Marketing, Advanced Political and Social Sciences, Economics and Sport Management.

### Key features

- 12 online courses led by international academics and professionals
- Duration of each course: from 1 to 3 weeks (28 hours per week)
